July 17, 2014

CMB Regional Centers
Attn: Kyler James
7819 42nd Street West
Rock Island, Illinois 61201

Dear Mr. James:

In response to your request, the Bureau of Labor Market Statistics has verified that the southwest corner of Normandy Boulevard and Alcoy Road in Duval County, Florida is in Census tract 137.21. The area consisting of contiguous Census tracts 26, 27.01, 27.02, 117, 118, 119.01, 119.03, 121, and 137.21 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.5 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Jacksonville Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

Mr. Pedro Vasquez
6521 Orange Drive
Davie, Florida 33314

Dear Mr. Vasquez:

In response to your request, the Bureau of Labor Market Statistics has verified that 5857 American Way in Orange County, Florida is in Census tract 170.01. The area consisting of contiguous Census tracts 104, 105, 116, 117.01, 117.02, 145.03, 145.04, 146.01, 146.08, 169.02, 169.04, and 170.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.7 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Orlando-Kissimmee-Sanford Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

Dear Mr. Ciniglio:

In response to your request, the Bureau of Labor Market Statistics has verified that 3755 NW 78th Avenue in Miami-Dade County, Florida is located in Census tract 90.10. The area including contiguous Census tracts 90.10, 90.24, 90.26, 90.27, 90.29, 90.30, and 90.35 qualifies as a high unemployment area under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.3 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 956 Washington Avenue in Miami-Dade County, Florida is in Census tract 44.03. The area consisting of contiguous Census tracts 20.03, 20.04, 21, 22.01, 22.02, 27.02, 27.05, 28, 29, 31, 34, 41.02, 41.06, 44.03, and 44.06 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.5 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

John N. Usher, Esquire
Usher Law Firm, P.A.
3019 SW 27th Avenue, Suite 102
Ocala, Florida 34471

Dear Mr. Usher:

In response to your request, the Bureau of Labor Market Statistics has verified that 3105 NE Silver Springs Boulevard in Marion County, Florida is in Census tract 20.02. The area qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 12.6 percent, above the qualifying rate of 11.1 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Ocala Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 7880 Biscayne Boulevard in Miami-Dade County, Florida is in Census tract 13.01. The area consisting of contiguous Census tracts 13.01 and 14.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 13.3 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

Dear Mr. Jordan:

The Bureau of Labor Market Statistics designates the area consisting of contiguous Census tracts 9805, 49.01, 49.02, and 57.04 in Miami-Dade County, Florida as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.5 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Dear Mr. Carr:

In response to your request, the Bureau of Labor Market Statistics has verified that 10100 Dream Tree Boulevard in Orange County, Florida is in Census tract 171.03. The area consisting of contiguous Census tracts 171.03 in Orange County, 408.02 in Osceola County and 110, 112.02, 112.03, 113, 114, 115.01, 115.02, 116.04, 116.05, 116.06, 117.31, 117.32, 123.05, 124.04, 124.05, 124.06, and 164 in Polk County qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.3 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Orlando-Kissimmee-Sanford Metropolitan Statistical Area and the Lakeland-Winter Haven Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

New York, New York 10007

Dear Ms. Singh:

In response to your request, the Bureau of Labor Market Statistics has verified that 1900 Blue Heron Boulevard in Palm Beach County, Florida is in Census tract 13.01. The area consisting of contiguous Census tracts 13.01 and 13.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 12.2 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics
