Grapeland Hospitality Development LLC
c/o EB5 Hotels & Investments Regional Center
801 Brickell Avenue, Suite 220
Miami, Florida 33131

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that the corner of Northwest 37th Avenue and Northwest 25th Street, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 9805. The area consisting of contiguous Census tracts 9805 and 49.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.4 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

13TH Floor
460 Park Avenue
New York, New York 10022

Dear Mr. Teichman:

In response to your request, the Bureau of Labor Market Statistics has verified that 915-955 Washington Avenue, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 44.03. The area consisting of contiguous Census tracts 44.03, 45, 9810, 37.02, 34, 36.01, and 31 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the area was 9.4 percent, above the qualifying rate of 8.0 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Mr. Gonzalo Lopez Jordan
Smart Car Holdings LLC
1200 Brickell Avenue, Suite 1950
Miami, Florida 33131

Dear Mr. Jordan:

In response to your request, the Bureau of Labor Market Statistics has verified that 900 Biscayne Boulevard, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 37.02. The area consisting of contiguous Census tracts 37.02, 34, and 36.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the area was 10.5 percent, above the qualifying rate of 8.0 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rp

Fox Rothschild LLP
2 South Biscayne Boulevard, Suite 2750
Miami, Florida 33131

Dear Mr. Stevenson:

In response to your request, the Bureau of Labor Market Statistics has verified that 3900 Biscayne Boulevard, Miami, Florida, in Miami-Dade County, Florida is in Census tract 21. The area consisting of contiguous Census tracts 21 and 27.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 9.9 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rp

Davie, Florida 33331

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 527 SW 145th Terrace, Pembroke Pines, Florida, in Broward County, Florida is in Census tract 1103.34. The area consisting of contiguous Census tracts 1103.34 and 1103.35 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.2 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd

Mr. Bradley J. Snyder
Atlantic American Fortune Fund II, LP
101 East Kennedy Boulevard, Suite 3300
Tampa, Florida 33602

Dear Mr. Snyder:

In response to your request, the Bureau of Labor Market Statistics has verified that 334 3rd Street South, St. Petersburg, Florida, in Pinellas County, Florida, is in Census tract 286. The area consisting of contiguous Census tracts 286, 205, and 212 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 9.4 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.
