Attention: Mr. Eric Koeser
2910 Maguire Road, Suite 2006
Ocoee, Florida 34761

Dear Mr. Koeser:

In response to your request, the Bureau of Labor Market Statistics has verified that the Intersection of Montague Street and Memorial Highway, Tampa, Florida, in Hillsborough County, Florida, is in Census tract 116.06. The area consisting of contiguous Census tracts 116.06, 116.13, 116.05, 116.11, 116.10, 114.12, 118.02, 119.02, 119.05, 13, 7, and 8 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.2 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd

Mr. Michael Gfesser
Michael Gfesser, P.A.
250 South Australian Avenue, Suite 1201
West Palm Beach, Florida 33401

Dear Mr. Gfesser:

In response to your request, the Bureau of Labor Market Statistics has verified that 250 North Australian Avenue, West Palm Beach, Florida, in Palm Beach County, Florida, is in Census tract 35.09. The area consisting of contiguous Census tracts 35.09, 23, 24, 22, 17, and 18.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.0 percent, equal to the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Mr. Michael K. Evans
180 Old Main Street
South Yarmouth, Massachusetts 02664

Dear Mr. Evans:

In response to your request, the Bureau of Labor Market Statistics has verified that 859 Cape Coral Parkway East, Cape Coral, Florida, in Lee County, Florida, is in Census tract 106.02. The area consisting of contiguous Census tracts 106.02, 106.01, 103.03, 103.07, 102.01, 102.03, 103.02, 101.02, 208, and 205.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.2 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd

Mr. Daniel Pena Giraldi
Post Office Development, LLC
3634 NW 2nd Avenue
Miami, Florida 33127

Dear Mr. Giraldi:

In response to your request, the Bureau of Labor Market Statistics has verified that 100-118 NE 1st Avenue, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 37.04. The area consisting of contiguous Census tracts 37.04, 37.07, 37.06, and 36.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 9.9 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 13001 West Sunrise Boulevard, Sunrise, Florida, in Broward County, Florida, is in Census tract 601.20. The area consisting of contiguous Census tracts 601.20, 601.13, 601.14, 601.26, 601.24, 503.10, 503.06, 503.01, 503.12, 603.03, 603.02, 603.04, 602.03, 503.07, 503.08, 412, 410, and 411 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.4 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics
