Mr. Mike Schoenfeld
Managing Partner
EB5 Affiliate Network, LLC
3801 PGA Boulevard, Suite 902
Palm Beach Gardens, Florida 33410

Dear Mr. Schoenfeld:

In response to your request, the Bureau of Labor Market Statistics has verified that 100 Las Olas Way, Fort Lauderdale, Florida, in Broward County, Florida, is in Census tract 425. The area consisting of contiguous Census tracts 425, 416, and 415 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.8 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd

The area consisting of contiguous Census tracts 215 and 216 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 9.3 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Dear Mr. Carr:

In response to your request, the Bureau of Labor Market Statistics has verified that 6165 Carrier Drive, Orlando, Florida, in Orange County, Florida, 7601 Canada Avenue, Orlando, Florida, in Orange County, Florida, and 7011 Grand National Drive, Orlando, Florida, in Orange County, Florida, is in Census tract 170.01. The area consisting of contiguous Census tracts 170.01, 146.07, 146.06, 146.05, 146.08, 117.02, 117.01, 183, 105, and 104 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.1 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Mr. Rodrigo Azpurua
Riviera Point Development Group
7971 Riviera Boulevard, Suite 101
Miramar, Florida 33023

Dear Mr. Azpurua:

In response to your request, the Bureau of Labor Market Statistics has verified that 3450 NW 25th Street, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 9805. The area consisting of contiguous Census tracts 9805 and 49.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.4 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics
