Dear Mr. Kofler:

In response to your request, the Bureau of Labor Market Statistics has verified that 1675 NW St. Lucie W Boulevard in St. Lucie County, Florida is located in Census tract 21.02. The area consisting of contiguous Census tracts 3, 4, 7, 14.02, 15.02, and 21.02 qualifies as a high unemployment area under the provisions of the EB-5 Investor Visa Program. The 2012 annual average unemployment rate for the combined area was 13.0 percent, above the qualifying rate of 12.2 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Port St. Lucie Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics
