Dear Mr. Hart:

In response to your request, the Bureau of Labor Market Statistics has verified that 21 SE 1st Avenue, Miami, Florida, in Miami-Dade County, Florida is in Census tract 37.04. The area consisting of contiguous Census tracts 36.01, 37.04, 37.06, and 37.07 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 13.3 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Mr. Roy Norton
Florida Overseas Investment Center
6547 Midnight Pass Road, #3
Sarasota, Florida 34242

Dear Mr. Norton:

In response to your request, the Bureau of Labor Market Statistics has verified that 7501 West Colonial Drive, Orlando, Florida, in Orange County, Florida is in Census tract 149.04. The area qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 10.2 percent, above the qualifying rate of 9.3 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Orlando-Kissimmee-Sanford Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics
