Mr. Kevin Wright  
c/o Wright Johnson  
13400 Riverside Drive, Suite 120  
Sherman Oaks, California 91423

Dear Mr. Wright:

In response to your request, the Bureau of Labor Market Statistics has verified that 216 Miracle Mile, Coral Gables, Florida, in Miami-Dade County, Florida is in Census tract 62.03. The area consisting of contiguous Census tracts 17.03, 24.02, 28, 29, 31, 49.01, 49.02, 50.01, 55.02, 56, 57.04, 62.01, 62.03, 62.06, 70.02, 72, 74, 75.01, 76.03, and 76.04 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.3 percent, equal to the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

In response to your request, the Bureau of Labor Market Statistics has verified that 500 Orange Avenue Circle, Belle Glade, Florida, in Palm Beach County, Florida is in Census tract 81.02. The area qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the area was 33.3 percent, above the qualifying rate of 9.3 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas. Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

  
Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

John L. Sesini, Esquire  
Sesini Law Group, SC  
234 West Florida Street, Suite 203  
Milwaukee, Wisconsin 53204

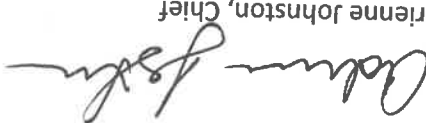

Dear Mr. Sesini:

In response to your request, the Bureau of Labor Market Statistics has verified that 1470 East Osceola Parkway, Kissimmee, Florida, in Osceola County, Florida is in Census tract 423. The area consisting of contiguous Census tracts 423, 422, 416, 417, 415, 413, and 411 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.3 percent, equal to the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas. Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

  
Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

Mr. Kevin Wright  
c/o Wright Johnson  
13400 Riverside Drive, Suite 120  
Sherman Oaks, California 91423

Dear Mr. Wright:

In response to your request, the Bureau of Labor Market Statistics has verified that 527 SW 145<sup>th</sup> Terrace, Pembroke Pines, Florida, in Broward County, Florida is in Census tract 1103.34. The area consisting of contiguous Census tracts 1103.34, 1103.35, 1103.42, 1103.21, 1104.02, and 1104.03 in Broward County, Florida, and 100.01, 100.15, 100.16, 100.13, 100.10, 100.06, 94, 95.03, 95.04, 99.05, 5.01, 4.14, 4.13, and 4.05 in Miami-Dade County, Florida qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.5 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas. Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

Dear Mr. Wright:

In response to your request, the Bureau of Labor Market Statistics has verified that 601 Biscayne Boulevard, Miami, Florida, in Miami-Dade County, Florida is in Census tract 37.02. The area consisting of contiguous Census tracts 37.02, 34, and 31 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 13.0 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas. Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Mr. Kevin Wright  
c/o Wright Johnson  
13400 Riverside Drive, Suite 120  
Sherman Oaks, California 91423

Dear Mr. Wright:

In response to your request, the Bureau of Labor Market Statistics has verified that 713 East Las Olas Boulevard, Fort Lauderdale, Florida, in Broward County, Florida is in Census tract 419. The area consisting of contiguous Census tracts 419, 425, 416, 417, 415, 414, and 408.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.6 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

New York, New York 10007

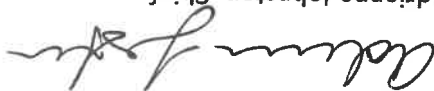

Dear Mr. Zeng:

In response to your request, the Bureau of Labor Market Statistics has verified that 3000 Commonwealth Boulevard, Suite 2, Tallahassee, Florida, in Leon County, Florida is in Census tract 22.01. The area consisting of contiguous Census tracts 22.01 and 21.04 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.3 percent, equal to the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas. Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

  
Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

Summerplace Development LLC  
Attn: Mr. Neil Richardson  
250 Fischer Avenue  
Costa Mesa, California 92626

Dear Mr. Richardson:

In response to your request, the Bureau of Labor Market Statistics has verified that the intersection of Del Webb Boulevard E and Meadow Vista Lane, Sun City Center, Florida, in Hillsborough County, Florida is in Census tract 140.08. The area qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the area was 15.2 percent, above the qualifying rate of 9.3 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Mr. Kevin Wright  
c/o Wright Johnson  
13400 Riverside Drive, Suite 120  
Sherman Oaks, California 91423

Dear Mr. Wright:

In response to your request, the Bureau of Labor Market Statistics has verified that 20669 Biscayne Boulevard, Aventura, Florida, in Miami-Dade County, Florida is in Census tract 1.34. The area qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the area was 10.8 percent, above the qualifying rate of 9.3 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

Mr. Jeffrey B. Carr  
President  
Economic & Policy Resources, Inc.  
Post Office Box 1660  
Williston, Vermont 05495-1660

Dear Mr. Carr:

In response to your request, the Bureau of Labor Market Statistics has verified that 2500 Edwards Drive, Fort Myers, Florida, in Lee County, Florida is in Census tract 803. The area consisting of contiguous Census tracts 803 and 5.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 11.8 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

Dear Mr. Norton:

In response to your request, the Bureau of Labor Market Statistics has verified that 2343 Cameron Avenue, Sanford, Florida, in Seminole County, Florida is in Census tract 211. The area consisting of contiguous Census tracts 211, 202.02, 203.01, and 201.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 10.7 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

American Regional Center Group  
1200 Brickell Avenue, Suite 1950  
Miami, Florida 33131

Dear Mr. Arrigo:

This is in response to United States Citizenship and Immigration Services (USCIS) questioning the validity period of Targeted Employment Area (TEA) designation letters.

In Florida, TEA designations are updated in March of each year when new labor force statistics are available. Therefore, a TEA designation made with 2014 labor force statistics is valid in our office through the end of March 2016. Beginning April 2016, TEA designations will be made using the 2015 labor force statistics.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

SpringRock Investments, Inc.  
140 South Beach Street, Suite 310  
Daytona Beach, Florida 32114

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 100 Lake Merial Boulevard, Panama City, Florida, in Bay County, Florida is in Census tract 2.01. The area consisting of contiguous Census tracts 2.01, 2.02, 27.03, 26.01, 24, 23, 22, and 20 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.4 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

Dear Mr. Carr:

In response to your request, the Bureau of Labor Market Statistics has verified that 400 South Miami Avenue, Miami, Florida, in Miami-Dade County, Florida is in Census tract 37.05. The area consisting of contiguous Census tracts 37.05 and 36.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 13.8 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.
