c/o Arnstein & Lehr LLP
Attn: Ronald Fieldstone, Esquire
200 South Biscayne Boulevard, Suite 3600
Miami, Florida 33131

Dear Mr. Fieldstone:

In response to your request, the Bureau of Labor Market Statistics has verified that 139 NE 1st Street, Miami, Florida, in Miami-Dade County, Florida is in Census tract 37.04. The area consisting of contiguous Census tracts 36.01, 37.04, 37.06, and 37.07 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 13.3 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd

Dear Ms. Oliva:

In response to your request, the Bureau of Labor Market Statistics has verified that 1000 Biscayne Boulevard, Miami, Florida, in Miami-Dade County, Florida is in Census tract 37.02. The area consisting of contiguous Census tracts 37.02, 34, and 31 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 13.0 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Mr. Tony Kassas
PDC Capital Group
250 Fischer Avenue
Costa Mesa, California 92626

Dear Mr. Kassas:

In response to your request, the Bureau of Labor Market Statistics has verified that the intersection of Hunter Street and West Grant Street, Plant City, Florida, in Hillsborough County, Florida is in Census tract 126. The area consisting of contiguous Census tracts 126, 129, 130.01, 101.07, and 101.08 in Hillsborough County, and 120.01, 120.02, and 110 in Polk County qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.8 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd

Dear Mr. Kassas:

In response to your request, the Bureau of Labor Market Statistics has verified that 101 Park Place Boulevard, Kissimmee, Florida, in Osceola County, Florida is in Census tract 422. The area consisting of contiguous Census tracts 422, 416, 417, 415, 413, and 411 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.5 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

In response to your request, the Bureau of Labor Market Statistics has verified that 19301 SW 127th Avenue, Miami, Florida, in Miami-Dade County, Florida is in Census tract 102.04. The area consisting of contiguous Census tracts 102.04, 102.05, 102.10, 104, 106.09, 106.14, 107.04, and 108.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.3 percent, equal to the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Orlando, Florida 32819

Dear Mr. Hodge:

In response to your request, the Bureau of Labor Market Statistics has verified that 1870 Military Trail, West Palm Beach, Florida, in Palm Beach County, Florida is in Census tract 29. The area qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the area was 11.7 percent, above the qualifying rate of 9.3 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Dear Mr. Hodge:

In response to your request, the Bureau of Labor Market Statistics has verified that 9642 U.S. Highway 19, Port Richey, Florida, in Pasco County, Florida is in Census tract 310.13. The area qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the area was 13.6 percent, above the qualifying rate of 9.3 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Tampa-St. Petersburg-Clearwater Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Dear Mr. Bernstein:

In response to your request, the Bureau of Labor Market Statistics has verified that 19086 NE 29th Avenue, Aventura, Florida, in Miami-Dade County, Florida is in Census tract 1.13. The area consisting of contiguous Census tracts 1.13, 1.34, 1.22, 2.11, 2.02, and 2.13 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.7 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Costa Mesa, California 92626

Dear Mr. Kassas:

In response to your request, the Bureau of Labor Market Statistics has verified that 14000 Del Webb Boulevard, Summerfield, Florida, in Marion County, Florida is in Census tract 8.02. The area consisting of contiguous Census tracts 8.02, 9.01, 9.02, 10.05, 27.01, and 27.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.3 percent, equal to the qualifying rate for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Ocala Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.
