J. David Pena, Esquire
SMGQ Law
201 Alhambra Circle, Suite 1205
Coral Gables, Florida 33134

Dear Mr. Pena:

In response to your request, the Bureau of Labor Market Statistics has verified that 18280 SW 147th Avenue, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 198. The area consisting of contiguous Census tracts 198, 102.01, 104, 105, 107.03, 106.14, and 108.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.2 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd

Dear Mr. Pena:

In response to your request, the Bureau of Labor Market Statistics has verified that 1400 NW 87th Avenue, Doral, Florida, in Miami-Dade County, Florida, is in Census tract 90.10. The area consisting of contiguous Census tracts 90.10, 90.35, 90.24, 90.27, 90.26, 91, 7.10, 7.11, 6.07, 6.08, 8.06, 8.08, 8.07, 16.05, and 16.06 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.4 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 8505 NW 12th Street, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 90.10. The area consisting of contiguous Census tracts 90.10, 90.35, 90.24, 90.27, 90.26, 91, 7.10, 7.11, 6.07, 6.08, 8.06, 8.08, 8.07, 16.05, and 16.06 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.4 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

2511 Mauritania Road
Punta Gorda, Florida 33983

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 15351 Burnt Store Road, Punta Gorda, Florida, in Charlotte County, Florida, is in Census tract 105.02. The area consisting of contiguous Census tracts 105.02, 101, 105.01, 103.02, and 102 in Charlotte County, Florida, and 101.02 in Lee County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.0 percent, equal to the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd

Mr. Carlos Jose Chuman
Riviera Point Development Group
7971 Riviera Boulevard, Suite 101
Miramar, Florida 33023

Dear Mr. Chuman:

In response to your request, the Bureau of Labor Market Statistics has verified that 115-116 Block in International Drive, Orlando, Florida, in Orange County, Florida, is in Census tract 170.01. The area consisting of contiguous Census tracts 170.01, 146.07, 146.06, 146.05, 146.08, 117.02, 117.01, 183, 105, and 104 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.1 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Rick Scott
GOVERNOR

Cissy Proctor
EXECUTIVE DIRECTOR

July 25, 2016

Mr. John Oliver
Senior Vice President Finance
U.S. Immigration Fund
115 Front Street, Suite 300
Jupiter, Florida 33477

Dear Mr. Oliver:

In response to your request, the Bureau of Labor Market Statistics has verified that 998 South Federal Highway, Boca Raton, Florida, in Palm Beach County, Florida, is in Census tract 75.05. The area consisting of contiguous Census tracts 75.05, 72.03, 71, 70.02, 69.11, 68.01, 68.02, 67, 65.01, 63, 62.03, 62.01, 61, 57.02, 57.01, and 56.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.0 percent, equal to the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd
