Fort Myers, Florida 33901

Dear Ms. Chappy:

In response to your request, the Bureau of Labor Market Statistics has verified that 2500 Edwards Drive, Fort Myers, Florida, in Lee County, Florida, is in Census tract 803. The area consisting of contiguous Census tracts 803 and 5.02 in Lee County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 9.1 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Dear Mr. Wu:

In response to your request, the Bureau of Labor Market Statistics has verified that 8360, 8500, 8540, and 8650 Biscayne Boulevard in Miami-Dade County, Florida, is in Census tract 13.01. The area consisting of contiguous Census tracts 13.01 and 14.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 11.3 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics
