To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 1160-1150 102nd Street in Miami-Dade County, Florida is in Census tract 38.01. The area consisting of contiguous Census tracts 11.01, 11.04, 12.03, 12.04, 12.05, 14.02, 20.01, and 38.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.6 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

Dear Mr. Richardson:

The Bureau of Labor Market Statistics designates the area consisting of contiguous Census tracts 124.11, 125.04, 127, 141.03, and 141.05 in Polk County, Florida, as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.1 percent, equal to the rate required for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Lakeland-Winter Haven Metropolitan Statistical Areas, it is not considered a rural area. The area does qualify as a TEA based on its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 2500 Edwards Drive in Lee County, Florida is in Census tract 803. The area consisting of contiguous Census tracts 803, 7, and 6 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 15.5 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Cape Coral-Ft. Myers Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Dear Mr. Tushinski:

In response to your request, the Bureau of Labor Market Statistics (BLS) has verified that 1001 Old Dixie Highway in Palm Beach County, Florida is in Census tract 14.04. This area qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for this area was 12.8 percent, above the qualifying rate of 11.1 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Dear Mr. Silzer:

In response to your request, the Bureau of Labor Market Statistics (BLS) has verified that 8701 South Skinner Court in Orange County, Florida is in Census tract 168.03. The area consisting of contiguous Census tracts 104, 105, 144, 145.02, 168.03, 169.02, 169.06, 169.07, 183, and 185 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.1 percent, equal to the qualifying rate for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Orlando-Kissimmee-Sanford Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

Dear Mr. Tsyganov:

In response to your request, the Bureau of Labor Market Statistics (BLS) has verified that 601 Biscayne Boulevard in Miami-Dade County, Florida is in Census tract 37.02. The area consisting of contiguous Census tracts 27.02, 31, 34, and 37.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 12.5 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics
