Mr. Michael Kester  
Impact DataSource  
4709 Cap Rock Drive  
Austin, Texas 78735

Dear Mr. Kester:

In response to your request, the Bureau of Labor Market Statistics has verified that 19575 Biscayne Boulevard, Aventura, Florida, in Miami-Dade County, Florida, is in Census tract 1.34. The area consisting of contiguous Census tracts 1.34 in Miami-Dade County, Florida, and 1003 in Broward County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the area was 8.9 percent, above the qualifying rate of 8.0 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

Dear Mr. Kester:

In response to your request, the Bureau of Labor Market Statistics has verified that 7250 North Kendall Drive, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 78.04. The area consisting of contiguous Census tracts 78.04, 78.07, 81.02, 82.06, 83.04, 83.06, 83.09, 104, 105, 106.06, 106.09, and 106.14 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the area was 8.2 percent, above the qualifying rate of 8.0 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Dear Mr. Martines:

In response to your request, the Bureau of Labor Market Statistics has verified that 1634 Rock Springs Road, Apopka, Florida, in Orange County, Florida, is in Census tract 178.04. The area consisting of contiguous Census tracts 178.04 in Orange County, Florida, 309.02, 301.06, 301.07, 301.04, and 301.02 in Lake County, Florida, 6.04, 6.05, 6.02, 6.01, 5.02, 4.01, and 5.01 in Marion County, Florida, and 9505 in Putnam County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.2 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rp

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 5500 North Military Trail, Jupiter, Florida, in Palm Beach County, Florida, is in Census tract 2.15. The area consisting of contiguous Census tracts 2.15, 2.09, 9.05, 10.04, 14.04, 13.02, 14.03, 14.02, 18.01, 15, 16, 17, 22, 24, 10.02, 19.07, 19.10, 19.11, 31.02, 29, 32.02, 39.01, 78.33, 39.02, 40.09, 40.08, 40.07, and 42.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.1 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 930 Southeast Federal Highway, Stuart, Florida, in Martin County, Florida, is in Census tract 10. The area consisting of contiguous Census tract 10, 8, 3, 18.02, and 18.01 in Martin County, Florida, 3820.06, 3821.12, 3821.06, and 3821.09 in St. Lucie County, Florida, and 80.01 and 80.02 in Palm Beach County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.2 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rp

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 1109 Del Prado Boulevard, Cape Coral, Florida, in Lee County, Florida, is in Census tract 102.03. The area qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the area was 8.0 percent, equal to the qualifying rate of 8.0 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 2551 South Federal Highway, Fort Pierce, Florida, in St. Lucie County, Florida, is in Census tract 3806. The area consisting of contiguous Census tract 3806, 3805, 3801, and 3802 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.2 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Mr. Fabian Berru  
238 Wilshire Boulevard, Suite 165  
Casselberry, Florida 32707

Dear Mr. Berru:

In response to your request, the Bureau of Labor Market Statistics has verified that 7720 Turkey Lake Road, Orlando, Florida, in Orange County, Florida, is in Census tract 148.13. The area consisting of contiguous Census tracts 148.13, 148.12, 147.04, 146.09, 146.08, 146.05, 146.01, 117.01, 117.02, 147.01, 183, 105, 104, 185, 120, 122.02, and 123.07 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the area was 8.1 percent, above the qualifying rate of 8.0 percent for that time period.

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rp
