Attn: Abe Ng

Dear Ms. Maki:

In response to your request, the Bureau of Labor Market Statistics has verified that 777 Brickell Avenue, Miami, Florida, in Miami-Dade County, Florida is in Census tract 67.09. The area consisting of contiguous Census tracts 67.09, 67.02, 36.01, 34, 31, 27.02, and 28 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.6 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this location is not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics
