Ms. Kimberly Mutchnik  
Aventura Medical Center  
21291 NE 213<sup>th</sup> Street  
Aventura, Florida 33180

Dear Ms. Mutchnik:

In response to your request, the Bureau of Labor Market Statistics has verified that 21291 NE 213<sup>th</sup> Street, Aventura, Florida, in Miami-Dade County, Florida, is in Census tract 1.33. The area consisting of contiguous Census tracts 1.33, 1.34, 1.22, 97.04, 2.02, 2.13, 2.15, and 2.16 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.1 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

Mr. Gabor Komar  
2458 Players Court  
Wellington, Florida 33414

Dear Mr. Komar:

In response to your request, the Bureau of Labor Market Statistics has verified that 550 Okeechobee Boulevard, West Palm Beach, Florida, in Palm Beach County, Florida, is in Census tract 28. The area consisting of contiguous Census tracts 28, 29, 31.02, 19.11, 19.1, 19.07, 10.02, 10.04, 14.04, and 14.03 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.0 percent, equal to the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

Mr. Sanjay Kumar  
1188 Cathcart Circle  
Sanford, Florida 32771

Dear Mr. Kumar:

In response to your request, the Bureau of Labor Market Statistics has verified that 560 South U.S. 17-92, Debary, Florida, in Volusia County, Florida, is in Census tract 909.04. The area consisting of contiguous Census tracts 909.04 in Volusia County, Florida, and 301.06, 301.07, and 301.02 in Lake County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.6 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

Ms. Lucia Trevino-Lane  
2500 Little Cove Road  
Charlotte, North Carolina 28270

Dear Ms. Trevino-Lane:

In response to your request, the Bureau of Labor Market Statistics has verified that 3401 North Miami Avenue, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 26. The area consisting of contiguous Census tracts 26, 28, and 27.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.9 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

100 SE 2<sup>nd</sup> Street, Suite 3400  
Miami, Florida 33131

Dear Mr. Sanchez:

In response to your request, the Bureau of Labor Market Statistics has verified that the intersection of SW 157<sup>th</sup> Avenue and SW 120<sup>th</sup> Street, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 196. The area consisting of contiguous Census tracts 196, 182, 103, 112.01, 114.03, and 111.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 9.0 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Mr. Roy Norton  
Florida Overseas Investment Center  
6547 Midnight Pass Road, #3  
Sarasota, Florida 34242

Dear Mr. Norton:

In response to your request, the Bureau of Labor Market Statistics has verified that 2880 North Orange Blossom Trail, Kissimmee, Florida, in Osceola County, Florida, is in Census tract 422. The area consisting of contiguous Census tracts 422, 416, 417, 409.01, 408.04, 411, and 413 in Osceola County, Florida, and 125.02, 125.04, 126.01, 127, 128.02, 136, 135, 134, 133, and 130.02 in Polk County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.2 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

Santa Fe, New Mexico 87508

Dear Mr. da Gama and Ms. da Gama:

In response to your request, the Bureau of Labor Market Statistics has verified that 2301 North 22<sup>nd</sup> Avenue, Hollywood, Florida, in Broward County, Florida, is in Census tract 904.04. The area consisting of contiguous Census tracts 904.04 and 805 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.4 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief

Mr. David Trunzo  
STI U.S. Equity, LLC  
106 Hall Place  
Neptune Beach, Florida 32266

Dear Mr. Trunzo:

In response to your request, the Bureau of Labor Market Statistics has verified that 2000 State Road 207, St. Augustine, Florida, in St. Johns County, Florida, is in Census tract 212.03. The area consisting of contiguous Census tracts 212.03 and 211.01 in St. Johns County, Florida, 602.06 in Flagler County, Florida, and 9514.01, 9512, and 9505 in Putnam County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.3 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

AJ/rd

Mr. Elliot Winer  
Winer Economic Consulting, LLC  
74 Robbins Road  
Sudbury, Massachusetts 01776

Dear Mr. Winer:

In response to your request, the Bureau of Labor Market Statistics has verified that 600 North Fort Lauderdale Beach Boulevard, Fort Lauderdale, Florida, in Broward County, Florida, is in Census tract 421. The area consisting of contiguous Census tracts 421, 420, 419, 425, 417, 416, 415, 408.01, 409.02, 409.01, and 414 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.9 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Ocoee, Florida 34761

Dear Mr. Koeser:

In response to your request, the Bureau of Labor Market Statistics has verified that 1250 North Hancock Road, Clermont, Florida, in Lake County, Florida, is in Census tract 313.07. The area consisting of contiguous Census tracts 313.07, 313.05, 312.02, and 312.05 in Lake County, Florida, 9107, 9106.01, 9110, 9106.02, 9115, and 9113.02 in Sumter County, Florida, 4512, 4510, 4508, and 4509.02 in Citrus County, Florida, and 10.03, 10.05, 10.07, 26.05, and 26.02 in Marion County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.1 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief

Mr. Eric Koeser  
Chief Operating Officer  
Amazing Explorers Academy  
2910 Maguire Road, Suite 2006  
Ocoee, Florida 34761

Dear Mr. Koeser:

In response to your request, the Bureau of Labor Market Statistics has verified that 1750 Ball Park Road, Kissimmee, Florida, in Osceola County, Florida, is in Census tract 421. The area consisting of contiguous Census tracts 421, 422, 416, 417, 409.01, 408.04, 411, and 413 in Osceola County, Florida, and 125.02, 125.04, 126.01, 127, 128.02, 136, 135, 134, 133, 130.02, 131.02, 131.03, and 133 in Polk County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.0 percent, equal to the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief  
Bureau of Labor Market Statistics

Dear Ms. Castro:

In response to your request, the Bureau of Labor Market Statistics has verified that 1250 North Hancock Road, Clermont, Florida, in Lake County, Florida, is in Census tract 313.07. The area consisting of contiguous Census tracts 313.07, 313.05, 312.02, and 312.05 in Lake County, Florida, 4508, 4509.02, 4510, and 4512 in Citrus County, Florida, 10.03, 10.05, 10.07, 26.02, and 26.05 in Marion County, Florida, and 9106.01, 9106.02, 9107, 9110, 9113.02, and 9115 in Sumter County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2015 annual average unemployment rate for the combined area was 8.1 percent, above the qualifying rate of 8.0 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.
