Dear Mr. Kofler:

In response to your request, the Bureau of Labor Market Statistics has verified that 1515 East Hallendale Beach Boulevard in Broward County, Florida is located in Census tract 1001.01. The area consisting of contiguous Census tracts 1001.01, 1002, 1004, 1005, and 1007 qualifies as a high unemployment area under the provisions of the EB-5 Investor Visa Program. The 2012 annual average unemployment rate for the combined area was 12.5 percent, above the qualifying rate of 12.2 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-Pompano Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Dear Ms. Oliva:

In response to your request, the Bureau of Labor Market Statistics has verified that 100 Terminal Drive 541 in Broward County, Florida is in Census tract 802. The area consisting of contiguous Census tracts 802 and 805 qualifies as a high unemployment area under the provisions of the EB-5 Investor Visa Program. The 2012 annual average unemployment rate for this area was 16.3 percent, above the qualifying rate of 12.2 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami- Ft. Lauderdale-Pompano Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

Dear Mr. Kofler:

In response to your request, the Bureau of Labor Market Statistics has verified that 1100 Dunn Avenue in Duval County, Florida is located in Census tract 104. The area including contiguous Census tracts 104, 103.4, 111, and 105 qualifies as a high unemployment area under the provisions of the EB-5 Investor Visa Program. The 2012 annual average unemployment rate for the combined area was 12.5 percent, above the qualifying rate of 12.2 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Jacksonville Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics
