Sarasota, Florida 34242

Dear Mr. Kofler:

In response to your request, the Bureau of Labor Market Statistics has verified that 4320 Deerwood Lake Parkway in Duval County, Florida is located in Census tract 159.01. The area including contiguous Census tracts 2, 3, 4, 5, 17, 18, 153, 154, 155, 158.01, and 159.01 qualifies as a high unemployment area under the provisions of the EB-5 Investor Visa Program. The 2012 annual average unemployment rate for the combined area was 12.3 percent, above the qualifying rate of 12.2 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Jacksonville Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

Dear Mr. Fieldstone:

In response to your request, the Bureau of Labor Market Statistics has verified that 750 North Congress Avenue in Palm Beach County, Florida is in Census tract 60.03. The area consisting of contiguous Census tracts 56, 57.01, 58.08, 60.03, and 61 qualifies as a high unemployment area under the provisions of the EB-5 Investor Visa Program. The 2012 annual average unemployment rate for this area was 12.6 percent, above the qualifying rate of 12.2 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-Pompano Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics

Mr. Kevin Wright
205 Worth Avenue, Suite 315
Palm Beach, Florida 33480

Dear Mr. Wright:

In response to your request, the Labor Market Statistics Center has verified that 321 North University Drive in Broward County, Florida is located in Census tract 606.05. The area consisting of contiguous Census tracts 503.03, 503.06, 503.07, 503.08, 602.03, 603.02, 603.03, 604.01, 604.03, 605.01, 605.05, and 606.05 qualifies as a high unemployment area under the provisions of the EB-5 Investor Visa Program. The 2012 annual average unemployment rate for the combined area was 12.5 percent, above the qualifying rate of 12.2 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Fort Lauderdale-Pompano Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief
Bureau of Labor Market Statistics
