Dear Mr. Bernstein:

In response to your request, the Bureau of Labor Market Statistics has verified that 301 Giralda Avenue in Miami-Dade County, Florida is in Census tract 62.06. The area consisting of contiguous Census tracts 56, 57.04, 58.01, 58.02, 59.01, 59.03, 62.05, and 62.06 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.2 percent, above the qualifying rate of 11.1 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief  
Bureau of Labor Market Statistics

Dear Mr. Tsyganov:

In response to your request, the Bureau of Labor Market Statistics has verified that 3301 College Avenue in Broward County, Florida is in Census tract 702.04. The area consisting of contiguous Census tracts 411, 412, 413, 414, 415, 417, 429, 608.01, 610.01, 702.04, 705.02, 706.02, 1103.07, 1103.08, 1103.21, 1103.28, 1103.35, and 1103.43 in Broward County and 4.02, 4.05, 4.08, 4.09, 4.10, 4.11, 4.12, 4.13, 4.14, 5.01, 10.02, 10.05, 94, 95.03, 100.01, 100.06, 100.09, 100.10, 100.11, 100.12, 100.13, 100.15, and 100.16 in Miami-Dade County qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2013 annual average unemployment rate for the combined area was 11.1 percent, equal to the qualifying rate percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Rebecca Rust, Chief  
Bureau of Labor Market Statistics
