Naples, Florida 34110

Dear Mr. Korda:

In response to your request, the Bureau of Labor Market Statistics (BLS) has verified that 12353 Winter Garden Vineland Road in Orange County, Florida is in Census tract 171.08. The area consisting of contiguous Census tracts 171.08, 148.09, 148.08, 148.07, 147.03, 146.08, 146.01, 117.01, 117.02, 183, 105, 104, 147.01, and 121 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.7 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Orlando-Kissimmee-Sanford Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Miami, Florida 33131

Dear Mr. Halleran:

In response to your request, the Bureau of Labor Market Statistics (BLS) has verified that 209 Altara Avenue, Coral Gables, Florida, in Miami-Dade County, Florida is in Census tract 74. The area consisting of contiguous Census 70.02, 72, and 74 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.3 percent, equal to the qualifying rate for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Mr. Bo Sharon
Chief Financial Officer
Lucky's Market
6328 Monarch Park Place, Suite 100
Niwot, Colorado 80503

Dear Mr. Sharon:

In response to your request, the Bureau of Labor Market Statistics (BLS) has verified that 11750 East Colonial Drive in Orange County, Florida is in Census tract 167.27. The area consisting of contiguous Census tracts 102, 104, 105, 117.01, 117.02, 121, 132.01, 132.02, 146.01, 146.05, 146.08, 147.01, 167.12, 167.13, 167.14, 167.23, 167.24, 167.27, 183, 184, and 189 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.4 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Orlando-Kissimmee-Sanford Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Mr. Bo Sharon
Chief Financial Officer
Lucky's Market
6328 Monarch Park, Suite 100
Niwot, Colorado 80503

Dear Mr. Sharon:

In response to your request, the Bureau of Labor Market Statistics (BLS) has verified that 1964 West Tennessee Street in Leon County, Florida is in Census tract 21.03. The area consisting of contiguous Census tracts 21.03 and 21.04 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 10.1 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Tallahassee Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Dear Mr. Carr:

In response to your request, the Bureau of Labor Market Statistics has verified that 6165 Carrier Drive, 7601 Canada Avenue, and 7011 Grand National Drive in Orange County, Florida is in Census tract 170.01. The area consisting of contiguous Census tracts 104, 105, 116, 117.01, 117.02, 145.03, 145.04, 146.01, 146.08, 169.02, 169.04, and 170.01 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 10.5 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Orlando-Kissimmee-Sanford Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Atlantic American Opportunities Fund
c/o Bradley J. Snyder
101 East Kennedy Boulevard, Suite 3300
Tampa, Florida 33602

Dear Mr. Snyder:

This is in response to United States Citizenship and Immigration Services (USCIS) questioning why the states were permitted to continue to use the 2000 Census tract geography and 2000 Census labor force data after 2010 Census data was available.

The U.S. Bureau of Labor Statistics (BLS) did not authorize states to begin using 2010 Census tract geography and 5-year American Community Survey (ACS) to develop the census tract estimates until late 2013. The first time states could use the new data to develop calendar year 2013 annual averages for Census tracts was March 2014. Prior to that, 2000 Census tract geography and 2000 Census labor force data were what BLS instructed states to use when developing small area estimates using the Census-share method.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief

Daniel Pena Giraldi
3634 NW 2nd Avenue
North Miami, Florida 33127

Dear Mr. Giraldi:

In response to your request, the Bureau of Labor Market Statistics (BLS) has verified that 121 SE 1st Street in Miami-Dade County, Florida is in Census tract 37.04. The area consisting of contiguous Census tracts 36.01, 37.04, 37.06, and 37.07 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 13.3 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a Targeted Employment Area however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/to

Mr. Samuel B. Silverman
EB5 Affiliate Network, LLC
3801 PGA Boulevard, Suite 902
Palm Beach, Florida 33410

Dear Mr. Silverman:

In response to your request, the Bureau of Labor Market Statistics has verified that 1 North Tamiami Trail in Sarasota County, Florida is in Census tract 1.01. The area consisting of contiguous Census tracts 1.01, 1.02, and 2 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.4 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the North Port-Sarasota-Bradenton Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Dear Mr. Silverman:

In response to your request, the Bureau of Labor Market Statistics has verified that 1280 U.S. Highway 1 in Palm Beach County, Florida is in Census tract 5.05. The area consisting of contiguous Census tracts 5.05, 11.02, 12, 13.02, 14.03, 14.04, and 15 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 10.0 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Miami-Ft. Lauderdale-West Palm Beach Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

To Whom It May Concern:

In response to your request, the Bureau of Labor Market Statistics has verified that 4951 Calypso Cay Way in Osceola County, Florida is in Census tract 408.04. The area consisting of contiguous Census tracts 408.04, 411, 409.01, 417, and 416 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.6 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Orlando-Kissimmee-Sanford Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

New York, New York 10019

Dear Mr. O'Connell:

In response to your request, the Bureau of Labor Market Statistics has verified that 2993-3013 NW 44th Avenue in Marion County, Florida is in Census tract 25.03. The area consisting of contiguous Census tracts 3.02, 14.01, 15, 17, and 25.03 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2014 annual average unemployment rate for the combined area was 9.7 percent, above the qualifying rate of 9.3 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, Bureau of Labor Statistics procedure used to calculate rates for small subcounty areas.

Since this area is located in the Ocala Metropolitan Statistical Area, it is not considered a rural area. The area does qualify as a TEA however, due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics
