Ms. Franchesca Delfino
Florida Restaurant Franchise Group
15951 SW 41st Street, Suite 800
Davie, Florida 33331

Dear Ms. Delfino:

In response to your request, the Bureau of Labor Market Statistics has verified that 6250 North Andrews Avenue, Fort Lauderdale, Florida, in Broward County, Florida, is in Census tract 501. The area consisting of contiguous Census tracts 501, 308.02, 306, 307.05, 305, and 304.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2016 annual average unemployment rate for the area was 7.6 percent, above the qualifying rate of 7.4 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218 if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rd

Dear Mr. Gordon:

In response to your request, the Bureau of Labor Market Statistics has verified that 6165 Carrier Drive, Orlando, Florida, in Orange County, Florida, 7601 Canada Drive, Orlando, Florida, in Orange County, Florida, 7055 South Kirkman Road, Orlando, Florida, in Orange County, Florida, and 7011 Grand National Drive, Orlando, Florida, in Orange County, Florida, is in Census tract 170.01. The area consisting of contiguous Census tracts 170.01, 146.07, 146.06, 146.05, 146.08, 117.02, 117.01, 183, 105, 104, 187, 120, 121, and 122.02 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2016 annual average unemployment rate for the area was 7.5 percent, above the qualifying rate of 7.4 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218 if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

Mr. Bradley J. Snyder
Principal
Atlantic American Opportunities Fund
101 East Kennedy Boulevard, Suite 3300
Tampa, Florida 33602

Dear Mr. Snyder:

In response to your request, the Bureau of Labor Market Statistics has verified that 3140 South Orange Avenue, Orlando, Florida, in Orange County, Florida, is in Census tract 139. The area consisting of contiguous Census tracts 139, 185, 104, and 105 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2016 annual average unemployment rate for the area was 7.5 percent, above the qualifying rate of 7.4 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218 if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rp

Dear Mr. Epelboim:

The Bureau of Labor Market Statistics designates the area consisting of contiguous Census tracts 170.04, 170.01, 146.07, 146.06, 146.05, 146.08, 117.02, 117.01, 183, 105, 104, 187, 121, and 122.02 in Orange County, Florida, as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2016 annual average unemployment rate for the combined area was 7.4 percent, equal to the qualifying rate for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218 if you have any questions.

Attn: Mr. Noel Epelboim

Dear Mr. Epelboim:

In response to your request, the Bureau of Labor Market Statistics has verified that 3499 NW 25th Street, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 9805. The area consisting of contiguous Census tracts 9805 and 17.03 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2016 annual average unemployment rate for the area was 9.0 percent, above the qualifying rate of 7.4 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218, if you have any questions.

Mr. Luis Prado
EB5 Florida Hotels & Investments Regional Center, LLC
175 SW 7th Street
Miami, Florida 33130

Dear Mr. Prado:

In response to your request, the Bureau of Labor Market Statistics has verified that 3651 NW 25th Street, Miami, Florida, in Miami-Dade County, Florida, is in Census tract 9805. The area consisting of contiguous Census tracts 9805 and 17.03 qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2016 annual average unemployment rate for the area was 9.0 percent, above the qualifying rate of 7.4 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.

Please call Demetria Rollins at 850-245-7218 if you have any questions.

Sincerely,

Adrienne Johnston, Chief
Bureau of Labor Market Statistics

AJ/rp

Dear Mr. Giraldi:

In response to your request, the Bureau of Labor Market Statistics has verified that 19501 Biscayne Boulevard, Aventura, Florida, in Miami-Dade County, Florida, is in Census tract 1.34. The area consisting of contiguous Census tracts 1.34 and 1.22 in Miami-Dade County, Florida, and 1003 in Broward County, Florida, qualifies as a Targeted Employment Area (TEA) under the provisions of the EB-5 Investor Visa Program. The 2016 annual average unemployment rate for the area was 8.0 percent, above the qualifying rate of 7.4 percent for that time period (see enclosed table).

The method used to estimate the unemployment rate in this area is called Census-share disaggregation, a standard U.S. Department of Labor, BLS procedure used to calculate rates for small subcounty areas.

Since these locations are not in a rural county or in a single Census tract with a qualifying rate, the enclosed combination qualifies as a Targeted Employment Area due to its high unemployment rate.
